SUMMARY

Motivated Front-End Developer with a strong focus on Angular and modern web technologies. Skilled in building responsive, scalable, and user-friendly applications using Angular, TypeScript, JavaScript, HTML, CSS, Tailwind, and Bootstrap. Passionate about creating clean, maintainable code, integrating REST APIs, and delivering high-quality user experiences. Quick learner with a strong commitment to continuous improvement and contributing effectively to development teams.

TECHNICAL SKILLS

Languages

- HTML5
- CSS3
- JavaScript (ES6+)
- TypeScript

Frameworks & Libraries

- Angular
- Bootstrap 5
- Tailwind CSS

Angular

- Standalone Components
- Routing
- Route Guards
- Services
- Reactive Forms
- Form Validation
- HTTP Client
- Lazy Loading
- Pipes
- Directives
- Component Communication

Web Development

- REST APIs
- Responsive Design
- Cross-Browser Compatibility

Soft Skills

- Teamwork
- Communication
- Fast Learner
- Problem Solving
- Time Management

Tools

- Git
- GitHub
- Postman

EDUCATION

Damietta University,
Faculty of Arts. Graduated (2026)
Bachelor of Arts in Languages and
Translation
Polyglot Department (English, French,
and German)

EXPERIENCE

Route Academy, Front-End Development Diploma Sep 2025 - Apr 2026

- Completed an intensive Front-End Development Diploma covering modern web development concepts and best practices.
- Built multiple responsive web applications using Angular, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, and Tailwind CSS.
- Developed reusable components, implemented Angular Routing, Reactive Forms, REST API integration, and authentication.

Angular Summer Code Camp, Information Technology Institute (ITI) Jul 2025 - Sep 2025

- Completed an intensive 150-hour Angular training program.
- Developed applications using Angular Standalone Components, Services, Dependency Injection, Routing, Guards, Reactive Forms, and HTTP Client.
- Built responsive user interfaces following Angular best practices.
- Collaborated with team members on practical projects.

PROJECTS

Adasa Website

Technologies: Angular • Bootstrap • TypeScript • Routing

- Developed a responsive photography website using Angular.
- Built reusable Angular components for better maintainability.
- Implemented Angular Routing for smooth navigation.
- Designed a responsive user interface using Bootstrap.
- Optimized performance and user experience across different screen sizes.

ACHIEVEMENTS

1st Place - ITI Summer Training Hackathon 2025

Recognized for developing an innovative software solution and demonstrating strong technical, teamwork, and problem-solving skills during the ITI Summer Training Hackathon.

LANGUAGES

- Arabic — Native
- English — Very Good

CERTIFICATIONS

- Web Development Using Angular (150 Hours) — Information Technology Institute (ITI)
- Certificate of Appreciation — Winner of ITI Summer Training Hackathon 2025
